About Mercy Relief

Mercy Relief is Singapore's leading independent humanitarian and disaster relief non-profit organisation, primarily operating across the Asia Pacific (APAC) region. Our disaster relief, recovery and resilience-building capabilities based in Singapore are amplified by an extensive network of regional partners. We deliver impactful programmes in five key areas: education, healthcare, shelter, sustainable livelihoods, and water, sanitation and hygiene (WASH).

Since our founding in 2003, Mercy Relief has responded to over 132 disasters across 31 countries, disbursing more than \$49.4 million. In 2025, we conducted 16 international relief operations and implemented four post-disaster projects. Our efforts are empowered by public and private fundraising efforts across the year.

Mercy Relief is a charity registered under Singapore's Charities Act (Chapter 37), with the status of an Institution of Public Character (IPC). We are governed by a team of highly experienced Board of Directors who uphold our Constitution and policies to maintain a high level of transparency and accountability as we scale our impact internationally.

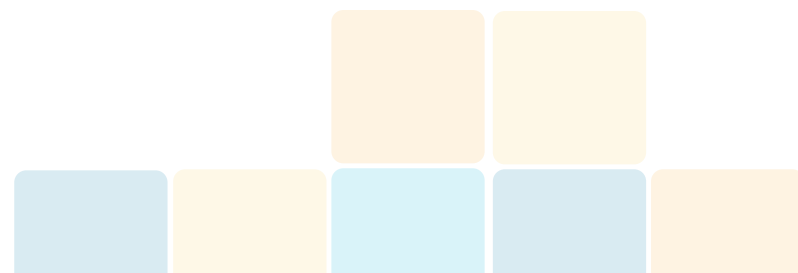

From 1 January 2025, Mercy Relief was appointed as one of a small number of organisations in Singapore that provides 100% tax-deductibility for donations to immediate disaster relief efforts conducted overseas under the Overseas Humanitarian Assistance Scheme (OHAS).

Vision

Championing compassion and care

Mission

To provide timely and effective aid when disasters strike, and empower communities in Asia-Pacific.

Chairman's Message

We live in a world beset by uncertainties experienced widely but not equally across the world. In 2025, Mercy Relief delivered humanitarian interventions across multiple crises and disasters, many of which disproportionately affecting communities already facing dire conditions.

Through dark clouds, the light that has shone through is the kindness and compassion of the Singapore public and our partners who have joined us to provide communities, families and individuals affected by disasters a boost as they journey towards a hopeful journey of recovery.

For that, we express our sincerest gratitude.

The road ahead is likely to bring more uncertain times. It is more important than ever to take heed of how those in vulnerable positions face ever-growing risks of having their lives upended by increasingly complex and intense crises.

As we continue to champion the stories of hope and resilience of those we serve, we do not take your kindness and compassion for granted.

We are powered by your trust in us, and the integrity with which we fulfil our mission daily is sacrosanct.

Join us, as we continue conveying the certainty of Singapore's compassion and care to the world, together.

Organisation Structure

Our Impact

In 2025, Mercy Relief expanded its humanitarian efforts to fulfil urgent needs caused by disasters and conflict. Over the year, we carried out 16 relief operations and four post-disaster projects in nine countries. Around \$818,000 of water, food, shelter, medical, education and livelihood support was provided to over 100,000 beneficiaries. Our activities in 2025 build on years of experience in the humanitarian sector.

Since Our Founding (2003)

Highlights: Relief Operations

Hope for Gaza, West Bank & Palestine Refugee Camps

Since October 2023, Mercy Relief has provided steady aid in Gaza and the West Bank, working with local partners and joining Singapore's national aid missions to deliver essential supplies. Through a holistic aid approach, the relief effort provided water, sanitation and hygiene (WASH), food, shelter and sustainable livelihood support, helping families cope amid deteriorating conditions. Mercy Relief's strong ecosystem of support not only enables the delivery of life-saving humanitarian assistance, but also empowers affected families to rebuild and look toward a more resilient future.

Singapore's 7th and 9th Humanitarian Aid Tranches

On 12 August 2025, Mercy Relief teamed up with the Changi Regional Humanitarian Assistance and Disaster Relief (HADR) Coordination Centre (RHCC) to provide food supplies for Singapore's land-crossing and emergency airdrop missions.

SUPPLIES AND
SHELTER RELIEF

The Philippines Preparedness and Response Project

Typhoon Bualoi (Opong) struck the east of Masbate City and Ticao Island on 26 September 2025, causing widespread damage. Subsequently, Typhoon Kalmaegi (Tino) struck on 4 November 2025, causing further widespread devastation.

Mercy Relief rapidly responded to two of the most severely affected and underserved areas identified through joint assessments with long-standing trusted local partners.

This targeted intervention helped bridge critical food and water gaps in the immediate aftermath of the typhoons. Feedback received from beneficiaries indicated high levels of satisfaction with the timeliness of the assistance provided.

Special thanks to Deutsche Bank for their generous support in making this project possible. The project will be carried forward into 2026.

Highlights: Relief Operations

Punjab Floods Relief

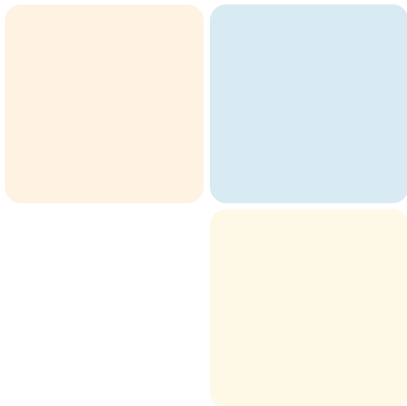

In August 2025, Punjab experienced some of its most devastating floods in decades, submerging over 2,000 villages, displacing nearly 400,000 people, and causing widespread damage to farmland and infrastructure.

Mercy Relief responded swiftly, deploying teams to deliver emergency aid to nearly 5,000 individuals, with a focus on reaching communities in remote areas. Our interventions included distributing medical kits, hygiene kits, mosquito nets, and other essential non-food items (NFIs) to meet the urgent needs of flood-affected households.

Beneficiaries shared accounts of returning to damaged homes and fields, voicing concerns about the significant challenges ahead, particularly regarding recouping shelters and livelihoods within the disaster prone area. These efforts were made possible through the dedication of volunteers from the local communities. Mercy Relief's efforts to support Punjab's recovery and long-term rebuilding carries forward into 2026.

Sumatra Floods Relief

When floods and landslides occurred across Sumatra in late November 2025, the area was severely disrupted, with limited access to food, clean water and electricity for numerous villages. In Aceh, families endured days without fresh food, with many seeking shelter along main roads in hopes of receiving humanitarian assistance.

>10,000
BENEFICIARIES
PROVIDED WITH
FOOD AND WASH
SUPPLIES

In response, Mercy Relief delivered life-saving relief to affected communities by establishing community kitchens and distributing essential food supplies and WASH packs to families in need, ensuring their basic needs were met throughout the crisis and providing vital support for recovery.

These efforts were made possible by the dedication of our ground partners and generous donors—including the Rahmatan Lil Alamin Foundation (RLAF) and Tabung Amal Aidilfitri Trust Fund (TAA), and the resilience of the community. This project will continue through 2026.

"On behalf of RLAF, I would like to express our heartfelt gratitude to all donors in Singapore, from every walk of life and every level of society, for their generous support and contributions in making this possible and to Mercy Relief for this meaningful partnership."

– Adnan Abdul Hamid
CEO, RLAF

SUPPORT

Türkiye Earthquake Refugee Recovery

Two years on, the devastating effects of the 2023 earthquakes in Türkiye continue to affect Syrian refugees; financial circumstances of affected communities have worsened, and 200,000 families remain in temporary shelters lacking basic amenities, leaving them exposed to harsh winter conditions. Many children are unable to access education, making it even harder for families to rebuild their lives.

In April 2025, Mercy Relief launched a six-month intervention programme with local partners and the Turkish Ministry for Education to provide access to education for children. This included building a school, providing psychosocial support, and distributing food and educational supplies to affected children. Mercy Relief also conducted relief distributions at Al-Noor camp, helping families regain a sense of well-being and normalcy.

SUPPORT

Vietnam Yagi Livelihood Recovery

The Quang Binh district of Vietnam was struck extensively by Typhoon Yagi in September 2024 with homes, schools and critical infrastructure damaged. The typhoon also flooded over 410 hectares of crops and 24 hectares of ponds.

Mercy Relief implemented sustainable livelihood support interventions by distributing livestock to affected households and collaborating with partners to conduct capacity-building workshops for the local community in April 2025. These efforts focused on disaster risk reduction, climate-smart livestock management, and improved livestock farming techniques to strengthen resilience against future shocks.

Highlights: Fundraising & Outreach

Mercy Relief is powered by supporters across Singapore who subscribe to our vision to champion compassion and care. In 2025, we had the privilege of working with individuals, organisations and institutions to support and amplify our mission. We thank each and every supporter and look forward to growing our collaborations in the years ahead!

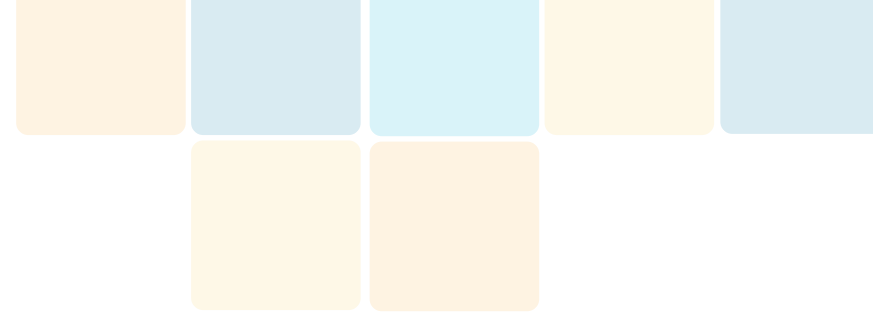

Mercy Relief Iftar: Sharing of Hope

Mercy Relief organised an Iftar gathering to provide a platform for engagement with key community members and to raise awareness of the organisation's humanitarian work.

The gathering - graced by Minister of Health, Mr Ong Ye Kung, and former President, Madam Halimah Yacob - brought together distinguished guests from across the public, private and people sectors. Community leaders from Masjid Maarof and Masjid Bencoolen also joined the event, highlighting the importance of collective action and cross-sector collaboration in addressing humanitarian challenges.

Beyond the breaking of fast, the event was an opportunity for meaningful dialogue and exchange, allowing Mercy Relief to share lessons and insights from recent experiences, our collective impact, and future initiatives.

Highlights: Fundraising & Outreach

Punjab Floods Relief

As severe floods swept through Punjab in August and September 2025, the Singapore community quickly came together to support Mercy Relief's Punjab Floods Relief.

From collecting essential supplies to organising creative fundraising events, many played a part in making a meaningful difference. The outpouring of support provided much-needed relief to those affected in Punjab and inspired hope during a challenging time. A notable initiative was Puns for Punjab, a community fundraising campaign that garnered public support and awareness for flood-affected families.

This campaign, along with other community driven initiatives from Singapore's Sikh community, raised funds for Mercy Relief to mobilise life-saving assistance to affected communities across Punjab.

Hope For Gaza, West Bank & Palestine Refugee Camps

Across Singapore, individuals and community partners rallied to support families in Gaza, West Bank & Palestine Refugee Camps as the humanitarian needs increased.

One such initiative was a ground-up collaboration with Matcha Breeze, which dedicated proceeds from its signature beverages to Mercy Relief's Hope for Gaza campaign. Supporters purchased drinks in solidarity with affected communities, with all contributions channelled towards life-saving assistance on the ground.

The initiative raised awareness and compassion, showing that even small acts can spark collective action, increase public engagement, and grow support for families in crisis in Gaza.

Highlights: Fundraising & Outreach

Teaming Up With Local Businesses & The Community Members

In 2025, Mercy Relief partnered with various local businesses, organisations, and networks to raise funds for shared causes. These efforts brought together Singapore's creative community and business owners to showcase their work for a greater purpose - from personal fundraising initiatives to art markets to music events to cafes, these collaborations transformed everyday acts of enjoyment into opportunities for kindness and collective action.

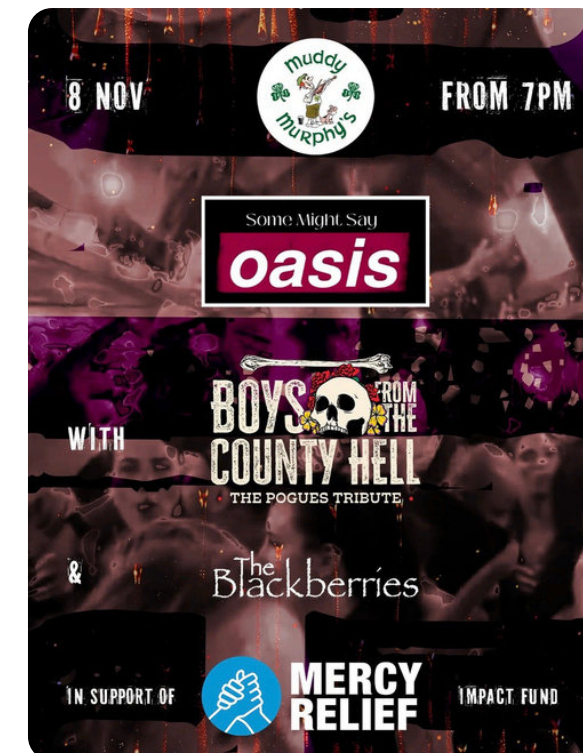

Birthday Fundraising Initiative by Kaizen and Kay

Kaizen (aged 7) and Kay (aged 9) dedicated their birthday to helping children in Gaza. Through a charity auction of handmade treats and cards, they raised more than \$7,000 for Mercy Relief, showing how small acts can inspire compassion and meaningful impact.

Fundraising Campaign with Boys From The County Hell (BFTCH)

Running from 8 October to 8 November 2025, this fundraising campaign united fans of "live" music for a meaningful cause. Bands including BFTCH, The Blackberries, and Oasis donated all fees from 8 November, inspiring generosity, community spirit, and positive impact through music.

Fundraising Collaboration with NUS College

The Rainbow Gaza Fundraiser at NUS College, in partnership with Mercy Relief, raised \$4,000 for Gaza and the West Bank through community donations, exemplifying collective generosity among youths in Singapore.

Chief Executive's Message: Looking Ahead

Predicting the future is difficult, and perhaps even a futile endeavour. Looking ahead, Mercy Relief is transforming itself to navigate an increasingly uncertain world. Innovation and resilience have enabled humanity to overcome adversity across history - as a uniquely Singaporean humanitarian organisation, we seek to embody these qualities in service to communities around the world.

We envision three shifts that will shape the way Mercy Relief serves in the years ahead.

Constructing platforms for compassion and kindness

Digital technologies and the experience economy reshape how people live, work and play. Mercy Relief will work more intentionally with like-minded partners to create platforms that turn everyday experiences into meaningful giving opportunity for individuals and institutions.

Comprehending the world around us

While no one can predict the next disaster with certainty, advances in technology have made data on risks and vulnerabilities more available. To this end, Mercy Relief is developing new capabilities to anticipate crises, verify needs, and identify those most in need with greater speed, accuracy and confidence.

Conveying innovations to those who need them

Singapore is a hub of innovation. As the nation's leading independent humanitarian agency, Mercy Relief is well placed to bring more of Singapore's expertise and innovative approaches to communities that can benefit from them, working alongside local partners to adapt these solutions to their unique contexts.

Introducing the stewards of our mission

Our ambition is simple: to make it easier for Singaporeans to radiate our compassion outwards to the world, being wiser in understanding where help is needed, and bolder in sharing Singapore's ingenuity with the world. Realising this ambition depends not just on the strategies we pursue, but on the people entrusted to steward them.

"It is my privilege to introduce the Mercy Relief team that will bring these ambitions to life - the team that continues to walk alongside you as we champion compassion and care for generations to come."

– Leon Yip
Chief Executive

Exemplary & Governance Practices

Upholding good governance is Mercy Relief’s utmost priority, as it is fundamental to attaining and stewarding the funding required to sustain our long-term initiatives. The organisation adopts a rigorous approach to appointing Board members and staff members and has implemented controls and audits over its internal processes to support exemplary governance practices.

Coherent Strategy

All staff members must have a clear understanding of where the charity is heading. Strategic planning, vision, mission, and core values, as well as our short- and long-term goals, are reviewed annually. The Board considers that the organisational strategy is aligned with Mercy Relief’s vision and remains relevant in the current and future changing landscape before giving its approval. This strategy is communicated to all staff during meetings and incorporated into their work plans and, subsequently, into their respective key performance indicators. Prior to the start of the new year, staff are made aware of how their roles align with Mercy Relief’s plan and how their performance will contribute to achieving the objectives. Impact reports on projects, performance, financials, and Mercy Relief’s governance are also regularly shared with the Board to ensure alignment with the strategic plan.

Conflict of Interest

All Board members and staff members are required to observe the conflict of interest policy and make full disclosure of interests, relationships, and holdings that could result in a conflict of interest. The Board members and staff members have fully complied with the conflict of interest policy. Staff members are not relatives of the Head of Agency (i.e. Chief Executive/Executive Director) or Board members.

Board and Management members are required to disclose any interest that they may have, whether directly or indirectly, that the Company may enter into or in any organisations that the Company has dealings with or is considering dealing with; and any personal interest accruing to them as one of the Company’s suppliers, users of services or beneficiaries. Should there be any potential conflict of interest, the affected members may not vote on the issue that was the subject matter of the disclosure. Detailed minutes will be taken of the disclosure and the basis for the final decision on the issue.

Enlisting the Right People

Prospective employees are assessed and evaluated on their relevant experiences, skill sets and high ethical standards through Mercy Relief’s stringent hiring and interviewing processes. This applies to prospective new Board members as well. The current Board comprises a diverse group of professionals with a wealth of experience in business development, medical, legal advice, marketing, audit governance, and fundraising.

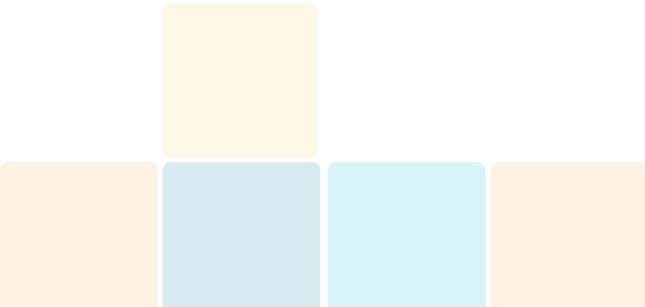

Risk Management Framework

A risk management policy has been established to embed risk management as a fundamental part of Mercy Relief’s objectives, plans and management system. A process was developed to record risks in a risk register, including risk items, causes, impacts, and mitigation plans and dates. The management team is held accountable for these risks and for developing/implementing measures/strategies to manage/mitigate them on a regular basis. Any key issues are promptly escalated to the Board for their advice.

Whistleblowing Policy

Mercy Relief’s whistleblowing framework provides a platform for stakeholders and parties to disclose any observed improprieties involving Mercy Relief’s employees, without fear of reprisal.

All instances of whistleblowing will be independently reviewed and investigated by the Board. The regular Board, Executive Committee (EXCO) meetings, and Annual General Meeting (AGM) are available communication channels for Board members and staff members to voice their feedback, opinions, and concerns.

Exemplary & Governance Practices

Funds in Deficit

Mercy Relief did not incur a deficit in FY2025 due to its proactive forward planning and the establishment of sufficient financial reserves, which were specifically set aside to address any unexpected funding shortfalls. This prudent financial management allowed the organisation to operate with confidence of continuity through increasing challenges in the operating and economic environment, ensuring stability and uninterrupted support for its beneficiaries.

Reserves

Mercy Relief’s programmes are principally funded by public donations and sponsors. We work closely with our key sponsors to meet our funding needs and aim to maintain adequate funds to cover our operating expenditure and outgoing programmes. The Board aims to maintain a cash cover of 60 months.

Donations

Mercy Relief primarily receives donations via the Giving.sg platform, Give.Asia platform, bank transfer, PayNow, cheque or cash. Donations with accompanying details (Name, NRIC, Email, Sum and Date of Donation) are processed for tax-deductibility, if eligible.

Tax-Deductibility

All receipts issued to donors reflect their eligibility for tax deduction either under the Institution of Public Character (IPC) status for local donations or under the Overseas Humanitarian Assistance Scheme (OHAS) for approved overseas donations. The tax deduction is processed to the Inland Revenue Authority of Singapore (IRAS) without further action by donors.

AML/CFT Policy

Mercy Relief’s AML/CFT policy safeguards against the risks of money laundering and the financing of terrorism. The policy outlines due diligence measures, donor screening procedures, and reporting protocols in compliance with relevant regulatory guidelines.

Role of the Board

The Board’s role is to provide strategic direction and oversight of Mercy Relief’s programmes and objectives and to steer the charity towards fulfilling its vision and mission through good governance. As part of its role, the following matters require the Board’s approval:

- Budget for the financial year and monitoring of expenditure against the approved budget;
- Quarterly financial statements;
- Monitoring the progress of the charity’s programmes.

Term Limit

Term Limit of Board: To enable succession planning and steady renewal in line with the charity’s sustainability, the Board has a term limit of 10 years, unless circumstances permit an extension. In particular, the Treasurer or Financial Committee Chairman (or equivalent) has a term limit of four years.

Disclosure of Remuneration and Benefits Received by Board of Directors and Staff Members

No Board member receives any remuneration for their services as a Board Director. No staff member employed by Mercy Relief were close family members of the Head of Agency (i.e. Chief Executive/Executive Director) or Board Directors.

During FY2025, one (1) paid staff member (the Head of Agency, i.e. Executive Director) received annual remuneration exceeding \$100,000, with the total remuneration falling within the range of \$100,000 to \$199,999. No other employee or key management staff member received remuneration above this threshold. The Executive Director did not serve on the Governing Board and did not vote on their own remuneration package.

Exemplary & Governance Practices

Name of Director	Number of Meetings	
	Held	Attended
Alwi Hafiz	4	2
Cheryl Koh	4	4
Lam Wy-Ning	4	3
Linus Ng	4	3
LTC (RET) Mejar Singh Gill	4	3

Board Meetings & Attendance

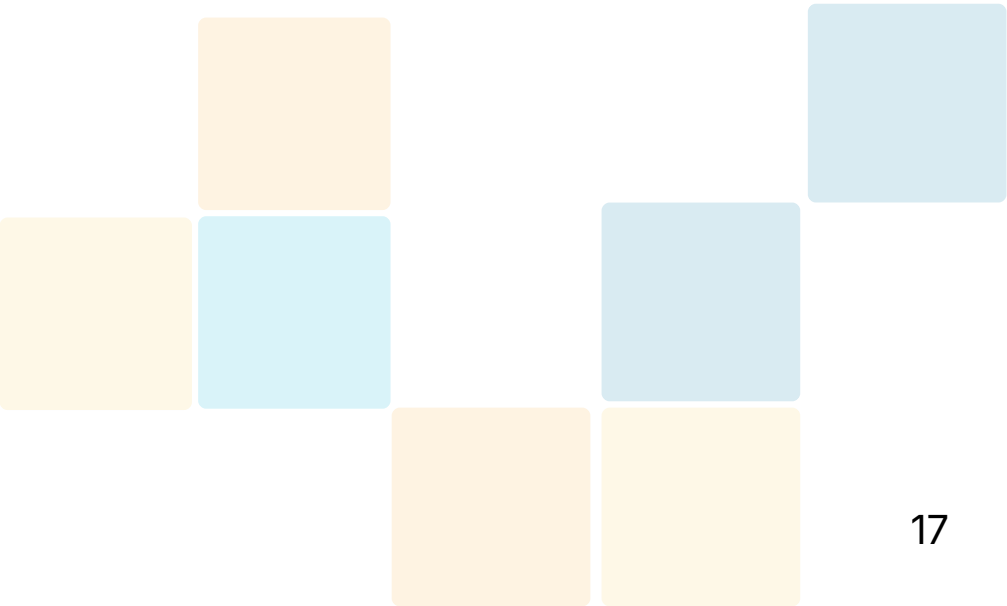

A total of four Board of Directors meetings and one Annual General Meeting (AGM) were held during the financial year. The chart shows the individual Board members’ attendance at meetings.

Satwant Singh has served on the Mercy Relief Board for more than 10 years. The Board benefited from his legal expertise, as well as his knowledge of the company’s past projects, trends, and perspectives that define our history, for informed decision-making.

Notes:

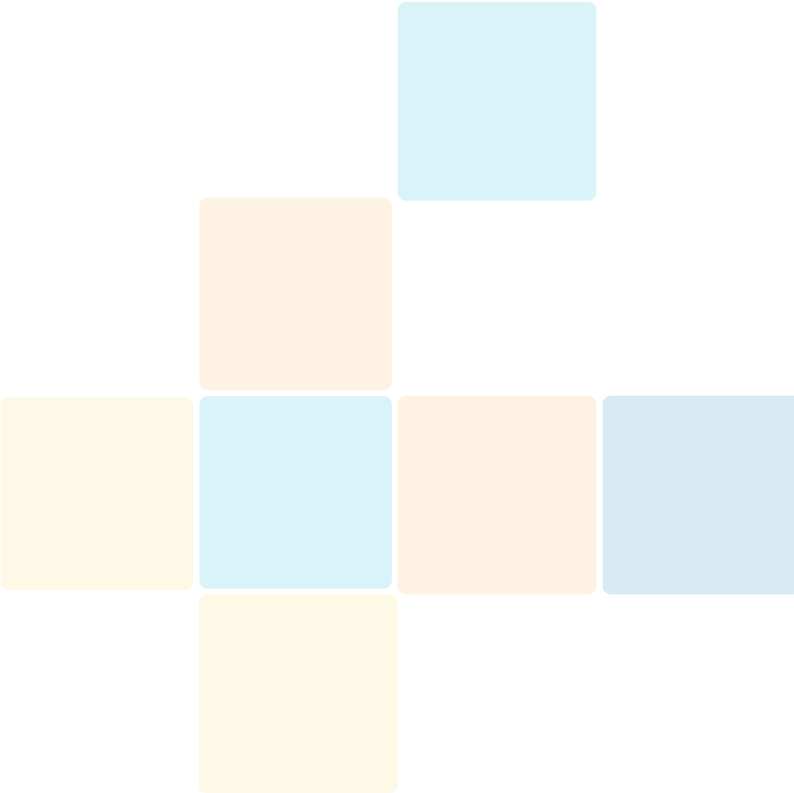

Vincent Ling retired from the Board on 30 November 2025.

The Board welcomed the appointment of Freddie Tan Eng Han, Dr Kevin Chan U-Jyn, Mohd Azhar Khalid, Muhammad Hafiz Noorahman, Thali Koattiath Udairam, and Dr Yim Beng Hoon as members of the Board, effective 11 November 2025.
